

What's Happening at Douthat State Park?

Saturdays in April
April 14, 21 and 28, 2007

11:00 AM - Turtle Kapers: All of our “Kapers” programs are designed to expose youth to the wonderful world of nature in a creative way. Stop by the Discovery Center to have some fun, make something neat and learn about **turtles** before you are done.

1:00 PM – Nest in Peace: Meet at the Discovery Center to learn how to attract feathered friends to your yard. Here is your chance to build a platform to encourage robins and phoebes to nest near your house. \$10

3:00 PM – Stroll in Nature: Join us at the Discovery Center and take a stroll up one of our trails to see what spring wildflowers might be blooming and learn a little about the natural history of Douthat State Park.

Many of Douthat's activities will meet at the Discovery Center. To get there: turn onto the gravel road towards Camp Carson Shelter, continue past the children's fishing area, across the low water bridge, and park in the parking area. The Discovery Center is the shelter on the left. For more information, contact the interpretive staff by phone at 540-862-8114 or email at douthatinterpreter@dcr.virginia.gov.
